Tips & Trivia  
for Pipe Smokers  
from  
**BOND STREET**

**WHAT PIPE SIZE IS RIGHT FOR YOU?**

Most important of all, the pipe should be comfortable in your mouth. Neither too heavy nor off balance.

Your guide to a pipe's weight and balance is the size of the bowl. Clasp the bit between your thumb and forefinger to test the different pressures of large and small bowls. If you want a large bowl, look for one that's lightweight.

Also, bear in mind: Short or curved stems usually reduce weight on the teeth, while long stems increase it.

**THE PIPE TOBACCO THAT STAYS LIT**

That's Bond Street, very definitely! This aromatic pipe tobacco keeps burning because of its old English cut—a combination of flakes for even burning and cubes for slower burning. And you'll enjoy the satisfying aroma and flavor of Bond Street's choice imported and domestic tobaccos. Make your next pipeful Bond Street.
